SUMMARY

Enthusiastic web developer with practical experience in JavaScript, HTML and CSS. Passionate about learning new technologies, currently building full-stack projects using React, Next.js and MongoDB. Looking to bring my problem-solving skills and adaptability to a dynamic engineering team.

EDUCATION

Bennett University, Greater Noida, Uttar Pradesh, India Expected June 2030
Bachelor of Technology, Computer Science

SKILLS

Languages: JavaScript, HTML5, CSS3
Frameworks & Libraries: React.js, Next.js
Databases: MongoDB
Developer Tools: Git, GitHub, Postman

PROJECTS

Password Manager | React.js, Node.js, MongoDB, Postman
Code: https://github.com/vedverma12/Password-Manager

- Developed a full-stack password management application, integrating a React.js frontend with a MongoDB database.
- Designed RESTful API endpoints to handle creating, reading, updating and deleting (CRUD) password entries.
- Tested and debugged API routes extensively using Postman before integrating them with the frontend client.
- Created modular, reusable React components to display password lists securely and manage form state for adding new entries.

URL Shortener | Next.js, MongoDB, Postman
Code: https://github.com/vedverma12/Url-Shortener

- Engineered a full-stack URL shortening service using Next.js and MongoDB to efficiently map, store and redirect user-generated web links.
- Managed backend API testing with Postman and handled dynamic UI updates utilizing core React principles.
